Human beings are the most intellectually complex organisms on this planet, so it really comes as no surprise that the millions of neuronal permutations and combinations give rise to infinite personalities and infinite identities. Unfortunately, however, we forget that some of this diversity isn't given the due respect it deserves. For centuries, Indian society has suppressed, censored, silenced and erased the lives of its LGBTQIA+ people.

Finally, though, censored voices and - the masks can now come off - logic, lives have found utterance, as the reason and justice have prevailed over highest court in the country, the regressive thought, and archaic pieces of Honorable Supreme Court of India, has legislation such as the validity of Section demolished centuries of silence. This 377 will become but a figment of the piece of art commemorates the occasion past.
