Blue, green, yellow - a few of the hues we see,
The sky, the grass, the sun - the things they ought to be.
Blue, green, yellow - a few of the hues we see.
Bruises, fungus, jaundice - the things that they can be.

Red, pink, white - a few of the hues we see.
Sunsets, flowers, clouds - the things they ought to be.
Red, pink, white - a few of the hues we see.
Infections, zoster, tinea - the things that they can be.

The ways these hues unfold
Tell stories vivid and bold.
What appears as beauty - clear and bright -
May hint at illness out of sight.
